EXTEND-Ex-P-LED	ODIS-LED, ODIS-LED-L	

was examined under the requirements of the provisions of European legislation for the food industry ES no. 852/2001 (HACCP).

Result of the audit showed luminaires compliance with the ES no. 852/2004, particularly in terms of requirements for cleanliness / maintenance / disinfecting surfaces and structural materials with chemical and mechanical resistance and protection against chipping, all in accordance with annex II. chap. I – par. 2a, b and chap. II – par. 1C.

This declaration applies to the use of the above-mentioned luminaires in storage, technical and administrative areas of food industry premises, where the luminaires are not installed directly in food preparation, cooking, washing or other areas with direct food handling, intensive steam, grease, high-pressure cleaning or aggressive cleaning agents. The suitability of each luminaire for the intended application shall always be assessed with regard to the technical parameters and limitations specified in the relevant technical documentation of the particular luminaire
